

TEXTILE BASED VENTILATION SYSTEMS

# public places

**KE Fibertec** has supplied ducting to a variety of public buildings, including Heathrow Terminal 5, The Millennium Stadium, Leeds-Bradford Airport, Dublin zoo and the Eden Project.

# public places

## THE **BENEFITS OF** KE FIBERTEC DUCTS

1. Can deliver air to large spaces with minimal ducting
2. Aesthetically attractive and architecturally interesting
3. Can keep large areas of glazing condensation free
4. Can act as an Acoustic damper within the space
5. Economical in terms of outright cost and speed of Installation
6. Long air throws possible, typically 2 to 25 metres
7. Can form complex and interesting shapes
8. Less intrusive maintenance regime

### CHOICES

1. KE-Inject® and KE-Direjet®
2. 9 standard colours and 1600 special colours
3. 5 mm Holes (Inject), 12, 18, 24, 48 and 60 mm Nozzles (Direjet)
4. Aluminium suspension rail or Wire

AIR THE WAY YOU WANT
